S.P. KOWSALYA

Madurai, Tamil Nadu | 9361563676 | kowsisp47@gmail.com

LinkedIn: linkedin.com/in/kowsalya-73663a3b7 | GitHub: github.com/kowsisp47

Portfolio: kowsisp47.github.io

PROFESSIONAL SUMMARY

Motivated MCA student with skills in Python, Web Development, and Machine Learning. Developed projects in CNN-based road defect detection, object detection, and web applications using modern technologies. Passionate about problem solving and building real-world software solutions. Seeking an entry-level Software Developer role to apply and enhance technical skills.

TECHNICAL SKILLS

Programming Languages: Python, Java, C

Web Technologies: HTML5, CSS3, JavaScript, Bootstrap

Databases: MySQL, MongoDB

Libraries/Tools: OpenCV, NumPy

Core Concepts: Data Structures, OOP, DBMS, Machine Learning, CNN, Problem Solving

Developer Tools: Git, GitHub, VS Code

EDUCATION

Master of Computer Applications (2024–2026)

V.V. Vanniaperumal College for Women – Affiliated to Madurai Kamaraj University

CGPA: 8.40 / 10 (Up to 3rd Semester)

B.Com (Computer Applications) (2021–2024)

CGPA: 8.1 / 10 – First Class | Gold Medalist

HSC (Commerce) – Kshatriya Girls' Higher Secondary School, Virudhunagar (2021)

Percentage: 88%

SSLC – Kshatriya Girls' Higher Secondary School, Virudhunagar (2019)

Percentage: 77%

PROJECTS

CNN-Driven Road Surface Defect Detection and Severity Evaluation

GitHub: github.com/kowsisp47/CNN-Driven-Road-Defect-Detection-and-Severity-Evaluation

• Designed and developed a CNN-based model to detect road surface defects from images.

• Applied image preprocessing techniques such as resizing, normalization, and noise reduction to improve model performance.

• Implemented severity classification to categorize cracks based on damage levels.

• Improved detection accuracy using optimized image processing and classification techniques.

• Applied problem-solving and analytics skills to improve model performance.

• Technologies: Python, OpenCV, NumPy, Machine Learning, Deep Learning, CNN.

OTHER PROJECTS

Expense Tracker Web Application | GitHub: github.com/kowsisp47/expense-tracker-mern

• Developed a web-based application to add, modify, delete, and display daily income and expense records efficiently.

• Designed responsive user interfaces using HTML, CSS, JavaScript, and Bootstrap.

Shop Annual Accounting System | GitHub: github.com/kowsisp47/Tally-project

• Managed inventory, payroll, and taxation using Tally ERP.

• Processed and maintained 1000+ financial transactions efficiently.

INTERNSHIP EXPERIENCE

Website Development Intern — GETIN Technologies (May 2025 – June 2025)

• Developed responsive web applications using HTML, CSS, and JavaScript.

• Worked on RedBus-inspired booking interfaces.

• Improved UI/UX and frontend usability through structured layouts and responsive design.

ACHIEVEMENTS & ACTIVITIES

• Gold Medalist in B.Com (Computer Applications) for academic excellence.

• Secured 3rd place in an Intercollegiate Quiz Competition.

• Winner of multiple Intercollegiate Adzap Competitions.

• Awarded Proficiency Prizes in 1st and 2nd Year.
